Give Us Your Input!

Public input from thousands of Californians has already helped shape the CALFED Bay-Delta solution. However, there are many significant issues that still need to be decided. Please fill out this form and tell us what you think is important when developing an equitable, feasible and durable Bay-Delta solution.

Name Steve Knorr
Organization (optional) Knorr, Inc
Address P.O. Box 790 Fall River Mills, CA 96028

Comments:

Must protect both surface and ground water rights in region. Should consider development of more storage (in and out of stream). Should base decisions on sound science and not politics. South of Tehuacapie cities should limit growth and meter their customers usage to encourage conservation. Any "pain" that results should be spread around, including our environmental friends. I for one do not care about water quality in the Bay-Delta. I'm unwilling to sacrifice the local environment to achieve it. Justify the whole project!

Use additional sheets if necessary.

Please clip out this form, fold, staple and return to:

CALFED Bay-Delta Program
1416 Ninth Street, Suite 1155
Sacramento, CA 95814

All comments will be immediately forwarded to CALFED technical staff and comments relating to the draft programmatic EIS/EIR will be addressed in a response to comments document.
